

E-Poster Session

Group #	Presentation Style	Category	Submission No.	First Name	Last Name	Country	Title of Abstract
Group E	E-Poster (Website)	Case Report	10001	Shingo	Satou	Japan	A Case of Hepatocellular Carcinoma Associated with Glycogen Storage Disease Type Ib
			10008	Keita	Shirahata	Japan	A Case of Large Hepatic Hemangioma with Extrahepatic Growth and Indicated for Resection
			10011	Yasuki	Hatayama	Japan	Primary Hepatic Methotrexate-associated Lymphoproliferative Disorders 5 Months after Methotrexate Administration
			10019	Dipankar	Das	India	Hepatocellular Carcinoma & Hepatic Cystic Echinococcosis Presenting as Synchronous Single Lesion
			10021	Rintaro	Kobayashi	Japan	A Case of Hepatocellular Carcinoma with Lung Metastasis that has been Controlled for more than 1 Year with Cabozantinib Introduced as the Fifth Line of Therapy
			10048	Ken	Sato	Japan	Atezolizumab plus Bevacizumab enable to Perform Conversion Surgery for a Lymph Node Metastasis of Hepatocellular Carcinoma
			10077	Shuntaro	Obi	Japan	Chameleon Sign in CT Images of Breast Cancer Liver Metastases
			10078	Kyoko	Hoshikawa	Japan	Clinical Study of Hepatocellular Carcinoma with Bone Metastasis Treated with Palliative Radiotherapy
			10089	Shuntaro	Obi	Japan	A Case of Bile Duct Stenosis after Percutaneous Ablation Therapy that was Successfully Treated with Drainage
			10090	Yamato	Nagata	Japan	Successful Response to Immune Checkpoint Inhibitor Therapy after Radiation Treatment in a Case of Stage IVb Hepatocellular Carcinoma
			10091	Keita	Maki	Japan	A Case of Post-RFA Hemothorax Improved with IVR and Intrathoracic Hematoma Removal
			10094	Tomohiro	Katsumi	Japan	A Case of Remission of Advanced Hepatocellular Carcinoma with Vascular Invasion Treated with Radiation and Sorafenib Combination Therapy
			10124	Rostyslav	Bubnov	Ukraine	The Value of Ultrasound in Diagnosing Coexisting Primary Liver Tumor and Renal Amyloidosis in a Patient with COPD: A Case Report
			10125	Christine P.	Velasquez	Philippines	Not the Usual: Diagnostic Dilemma in a Large Well Differentiated, Non- AFP Producing Hepatocellular Carcinoma with Atypical Features on Non-Invasive Imaging
			10126	Fumiya	Suzuki	Japan	A Case of Hepatocellular Carcinoma Associated with Hepatic Sarcoidosis
			10138	yosuke	otsuka	Japan	Successful Treatment of Hepatocellular Carcinoma by Radiofrequency Ablation with Indocyanine Green Fluorescence Laparoscopy
10139	Maki	Tobari	Japan	A Case of a Teenage Caucasian Female who Underwent Microwave Ablation for Recurrent Fibrolamellar Hepatocellular Carcinoma after Hepatectomy			
10143	Rostyslav	Bubnov	Ukraine	Imaging Insights into the Diagnosis and Management of Gallbladder Lesions in a High-Risk Patient: A Case Report			
10144	Rostyslav	Bubnov	Ukraine	Case Report: Coexisting Liver-Gallbladder Oncology with Calculous Inflammation and Cholestasis - A Comprehensive Ultrasonographic Evaluation
